

SparkleSlap

Learning is Earning.

Parents would like kids to learn about bitcoin and lightning.

Rui Gomes
@8bitgomes

Teach your kids to start saving satoshis 💰

Over time, with the price of bitcoin rising, they will learn the concept of time preference and hard money.

The end game is having your kids spending easy money (fiat) and saving hard money (bitcoin).

B Didi Taihuttu B
@Diditaihuttu

I wish you guys an amazing sunday! As [@thebitcoinfam](#) we receive many questions about our kids and education and what I think about the future of bitcoin kids. Thats why I made this short video for you ❤️

Replying to [@bitpiggy](#) [@Excellion](#)

I love this idea. Would support it & would love to help. [@Pigzbe](#) is missing a major opportunity to do good.

Imagine a Bitpiggy paired w/ an education app that lets kids earn bitcoin that their parents deposit. Teach kids about Bitcoin and saving and have a full node option!

Kids should learn about bitcoin and lightning network.

cryptocoinkid
@cryptocoinkid1

If @aantonop was a kid and had 1 Bitcoin, this is what he would do 🔥🔥🔥

@Tabassumnaiz

French kids will now learn about [#Bitcoin](#) at school 🎓🎓

France's Education Ministry is introducing a module that discusses the economic impact of Bitcoin, and its future as an alternative form of money.

Bitcoin
@bitcoinpoet

Would paying kids in crypto for correct answers in school help incentive education?
bit.ly/1T84eUb [#bitcoin](#)

Meet Thomas and Tina.

An illustration of two stylized characters, Thomas and Tina, from the chest up. Thomas is on the left, with brown hair and a dark blue shirt. Tina is on the right, with dark hair and a pink shirt. They are both facing forward. Two white speech bubbles are positioned around them, one to the left of Thomas and one to the right of Tina.

I want to
Know what
Bitcoin is.

I want to know
how to spend
bitcoins on
lightning
network.

Use cases / User stories

- As a parent, I want to make my kids understand a topic
- As a parent, I want to reward my kids for understanding the topic
- As a donator, I want to gift education topics
- As a kid, I want to earn bitcoins by learning

SparkleSlap

Motivate people and kids to learn about bitcoin
by rewarding them with bitcoins.

SparkleSlap fixes this!

Learning is Earning.

- SparkleSlap is a platform to curate education for kids.
- Parents and Kids have an incentive to develop the skills of kids.
- Kids are curious to learn new things, they are motivated further with an incentive.
- Kids are rewarded with bitcoins for completing the task successfully.

Kids need a Sparkle.

- Promotes applied learning through Bitcoin.
- Bitcoin is multi-disciplinary - Physics, Maths, Computer Science, Social Science.
- On-demand and micro learning, aligns with the lightning network capabilities.
- Propels quality on-demand education because incentives are aligned.
- Revenue stream for topic creators.

Next Steps

- Sparkle service to create new topics and questions.
- Expand to bitcoin disciplines.
- Need based learning platform.
- Atomic Swaps on Q&A.

Questions?

Adoption has to start with education.
